

Sanctum of Shadow

Inspirations / References: Horror, Dead By Daylight. Dark Deception

Characters:

- Player 1,2,3. *The Victims* (+100 Health, 10 Damage) (Each)
- Player 4. *The Boss* (+200 health, Critical 50 Damage)

Rules:

- I. Commencement: All players must begin at the designated start point. The player who rolls the highest number on the dice will go first.
- II. Turn Progression: Once your turn, roll a single dice and advance your piece to the corresponding number space
- III. Encounter: Some spaces represent a unique encounter. The action you must take is determined by the other symbol or the name of that space.
- IV. Path to Freedom: Players need to gather gems that are scattered around the board. Players must also find the key card from the mystery deck. Once found, they can use it to unlock the door at the end.
- V. Victory & Consequences:
 - The first player who reaches the end declares the “win”

Rankings:

(Escaped First) (1)

(Escaped Second) (2)

(Escaped Third) (3)

If all or at least one player escapes to the end, it will be a loss for player 4.

(If player 4 stops all 3 players, it will be player 4's win of the entire game.)

Mechanics:

- Random spaces that have random effects, good or bad
- Has in-game combat between players and the boss player

- Directional Dice decides where the **Victim** player can move around the space, depending on where their dice lands.
- Number Dice are specified for the 4th **Boss** player.
- The **Key**: This special item is crucial as it is used for the final lock of the stage, as the key will not be used unless encountering the whole Boss fight

Card Mechanics:

- Mystery space, must draw a card from the deck. Providing either:
 - Advantage
 - Disadvantage

Each card contains various types, such as:

- Weapons: Used for combat
- Armors: Increase defense & Endurance
- Spells: Added effects that change status **positively** or **negatively**
- Trap Cards: Dimension trap for players to be forced into a small mini-game, quick and easy, but with a 50/50 chance of either being safe or setting themselves up for downfall.
 -

Final Chance: If defeated by the Boss player or become the last remainder, you now have a chance to draw a card that can either guarantee your opportunity to play again, or face an automated loss of the game.

- **Red Cards**: If you draw red, you are out of the game.
- **Green Card**: If you draw a green card, you get to restart from the start of the designated starting point and resume back in the game again.

Objectives:

- 3 Players need to try to escape the dungeon
- Defeat the boss
- The Boss (AKA player 4) has to try to defeat all 3 players
- Collect gemstones and items around the dungeon to proceed to the feature level & build up the next phase that requires fighting the boss.

Combat System & Survival:

- The Boss's pursuits: The Boss lands on the victim's space, and the victim is sent back to the beginning.
- Fighting Back: If the victims & Boss are in the same space together
 - Using Weapon and ability cards to help temporarily stun the boss & an opportunity to escape with their lives, to continue in the game.
 - **Common Enemies**: A single weapon attack is enough to defeat a common enemy.
 - Worth 30 health,
 - Only leaving victims if no weapon or abilities. Deals only 10 damage.
